Projects

1. **Book Information System**
   - Technology used: HTML, CSS, PHP, MySQL, Xampp Server
   - In this website, users can search for the books they want and go through the basic details of the books and add to their wish list. Users can also buy the books from the provided link.

2. **Notes Application**
   - Technology used: Android Studio, XML, Java
   - Designed user-friendly note-taking application with a minimalist approach. Focused on efficiency, enabling quick note capture and list creation.
   - Notable features include automatic saving, customizable interface for personalization, and easy note sharing for enhanced collaboration.

3. **Resume Builder**
   - Technology used: React JS, NPM, Firebase
   - It is a React-based resume builder integrated with Firebase authentication. It enables users to create, edit, and store personalized resumes securely.
   - The application features user-friendly interfaces for resume input and offers various templates for visually appealing resume outputs, enhancing the job application process for individuals.

Certifications

- **Python 3 Programming**

    University of Michigan on Coursera – May 29,2023

- **Databases and SQL for Data Science with Python**

    IBM on Coursera – April 06,2023

- **Data Sciences**

    University of California San Diego on Coursera – February 02,2022

Personal Information

- **Gender**: Male
- **Date of Birth**: 28th June 2002
- **Father's Name**: Shankaranand P V
- **Mother's Name**: Sunitha H C
- **Marital Status**: Unmarried
- **Nationality**: Indian
- **Languages**: Kannada, Hindi & English
- **Hobbies**: Reading Novels
